

2019 Connecticut State Association Pistol Shooters at Camp Perry Ohio

New Association URL “thecsrra.org”

This year ten of us Connecticut pistol shooters made it out to the 2019 National Championship hosted at Camp Perry Ohio. The sad thing is this year was the last year that the NRA will be shooting the National Championship at Camp Perry. They are moving the pistol phase matches 250 miles further west to Atterbury Indiana. Another dumb move made by the NRA. The total number of pistol shooters this year was 576 competitors a little more than last year's 532.

We had two Expert teams:

I have to say that the shooting conditions this year was a little better than last year. You see, there were very little wind, no rain, and low humidity for all relays and all six days.

Several of our shooters had some outstanding performance this year.

We had four new shooters go out there this year for the first time and they did a great job.

Kate Brown made the President 100

Mandi Moore shot a 100-9X's in Rapid fire in .22

Chris Moore shot a 100-4X's in Time fire in .22

Chris Moore earned 14 points toward his distinguish badge 4 points in SAFS 10 points in NTI

Greg Gardella earned 10 points toward his distinguish revolver

Congratulations to all of our four new shooters.

You will see that our new shooters this year didn't have team shirts and hats, that's because the pistol director screwed up. But they will have them as soon as they are made. When you get my age you forget a lot.

Oh by the way! Even those I registered our teams as an Association team. The NRA put us in an Open team. But after seeing how well all of the teams did, I didn't complain.

Oh Yes, I have a couple of more things to mention. When you come out to Perry for the first time and go down Commercial Row your like a kid in a candy store. Well, that held true for the Moore's, you see Mandi is now a proud owner of a 9mm Rock River.

Another thing that happens out there is some of us act let kids. Chris Moore and I went to “Cedar Point” the capital city of roller coasters. We waited 45 minutes to get on the ride called “Thrill Drag Racer”. It goes down a straight track from 0 to 110 miles an hour, shoots straight

up 350 feet to a hair pin curve and straight down 350, the ride lasted 17 ½ seconds it was a great ride. The only problem was, it was right at dusk and those little balls of gnats were flying all over the place. I had a white Polo shirt on and going at 110 miles an hour and hitting those balls of gnats, so when we got off the ride my shirt looked like I was shot with a 12 gauge buck shot. Both Chris and I had to go into the men's room and wash off those bugs off from our face and arms.
